Arctic Dawn

Description

Arctic Dawn is a radiant and intensely exciting natural stone, composed of icy silver tones and soft greys. With soft and undulating patterned waves and subtle colour variation, Arctic Dawn captures the soft grey tones of early morning light on ice. A stunning and stylish choice, capable of taking your breath away... just like watching the sun rise over the polar caps.

Why choose Arctic Dawn?

Marble is a beautiful, regal stone. The natural tonal variation between the tiles looks great in both traditional and modern settings. Marble can be used both outdoors and indoors. It is very cool underfoot so ideal to use in any climate. The smooth texture is fabulous to walk and sit on and offers great slip resistance. The natural colour variation hides marks very effectively. Marble is accurately sized, cuts well and is easy to lay.

Finish

Sandblasted

Maintenance

Requires sealing. Seal with penetrating sealer to make cleaning easier. Use pH neutral cleaners. Do not use acid to clean.

Slip Rating (Wet Pendulum)

This tile has a P5 slip rating in the (V) pendulum classification which is the highest wet pendulum rating available under the current standards. (For pool surrounds, a minimum of P4 is required.)
