We recommend sealing of all natural stone products.

Havana White

Description

Havana White Marble is primarily ice-cool white aside from charming 'barely-there' traces of soft blue-grey which complement and soften its appearance. It is cool underfoot and offers moderate slip resistance due to its sandblasted finish. The tumbled edge tiles are accurately sized and easy to lay. Just like Havana's beach clubs built upon the never-ending white sands, Havana White Marble around your pool gives off 'heaven on earth' vibes.

Why choose Havana White?

Marble is a stunning, natural stone. The natural, organic, tonal variation between the tiles looks great in both traditional and modern settings. Marble can be used both outdoors and indoors. It is very cool underfoot so ideal to use in any climate. The smooth texture is fabulous to walk and sit on and offers great slip resistance. The natural colour variation hides marks very effectively. Marble is accurately sized, cuts well and is easy to lay.

Finish

Sandblasted

Maintenance

Requires sealing. Seal with penetrating sealer to make cleaning easier. Use pH neutral cleaners. Do not use acid to clean.

Slip Rating (Wet Pendulum)

This tile has a P5 slip rating in the (V) pendulum classification which is the highest wet pendulum rating available under the current standards. (For pool surrounds, a minimum of P4 is required.)
